Email: pundraj420@gmail.com

GitHub: <https://github.com/pundraj>

Mobile: +91-7249671503

SKILLS

Languages:	Python, C, C++, JavaScript, HTML, CSS
Tools/Platforms:	MySQL, MongoDB, GitHub, Git, VS Code, Vercel, Figma, Canva, AWS, Docker
Data Analytics/ML:	Excel, Power BI, LangChain, fastAPI, RAG
Core Areas:	DSA, DBMS, Operating Systems, Machine Learning, Data Analysis, Feature Engineering
Soft Skills:	Problem-Solving, Team Collaboration, Project Management, Adaptability, Analytical Thinking

INTERNSHIP

Unified Mentor Remote Internship Link	Feb' 25-Mar' 25
- Developed end-to-end data pipelines including data cleaning, EDA, and model deployment using Python, SQL, and Streamlit, reducing manual reporting effort by 30%. Engineered 15+ features from soil composition, weather patterns, and irrigation data, improving baseline model performance by 28% through feature selection, while reducing RMSE by 35%. - Built and optimized machine learning models (Logistic Regression, Random Forest, XGBoost) using Python, Scikit-learn, and Pandas, improving prediction accuracy by 18% through feature engineering and hyperparameter tuning. - Developed and optimized C++ modules by implementing efficient data structures (arrays, stacks, queues, hash maps, trees) to improve system performance and reduce execution time by up to 25%.	

PROJECTS

BoostCV – AI-Powered Resume Analyzer – Python, LangChain GitHub	Dec' 25-Feb' 26
- Built an AI-powered resume analyzer using LangChain and Google Gemini, evaluating 500+ resumes for ATS compatibility and generating keyword optimization suggestions that improved job match rates by 40%. - Improved a PDF parsing pipeline with regex and LangChain document loaders to extract 10+ resume sections, achieving 92% accuracy in detecting skill gaps across 100+ job description comparisons. - Deployed a real-time Streamlit dashboard with <3s response time, implementing automated resume-JD matching and scoring, reducing resume revision cycles by 50%.	
AgroSphere - Python, Scikit-learn, XGBoost, Random Forest GitHub	Aug' 25-Nov' 25
- Developed a crop yield prediction system using ML algorithms (Linear Regression, Random Forest, SVM, XGBoost) on 10,000+ agricultural records, achieving 92% accuracy with XGBoost through GridSearchCV tuning. - Performed feature engineering on 15+ variables including soil, weather, and irrigation data, improving model performance by 28% and reducing RMSE by 35% using correlation analysis and feature selection. - Optimized model for real-time predictions (<200ms inference time), enabling data-driven fertilizer optimization (20% waste reduction) and 30% improvement in harvest planning accuracy.	
Real-Time Farmer's Market Dashboard - Advanced Excel. GitHub	Apr' 25-Jun' 25
- Developed an Excel analytics dashboard using PivotTables, Power Query, and DAX to analyze 5,000+ daily transactions, reducing reporting time by 70% for 50+ vendors. - Built automated ETL and data validation workflows to process 15,000+ weekly records, achieving 99% data accuracy and saving 40+ hours of manual reconciliation per month. - Created 8 interactive visualizations to monitor crop prices, sales trends, and seasonal demand across 12 product categories, uncovering 25% pricing optimization opportunities.	

CERTIFICATES

A Guide to Machine Learning with Data Science CipherSchools	Jul' 25
Complete CPP Course Neocolab	Dec' 24
Data Structure and Algorithm Neocolab	Dec' 24

ACHIEVEMENTS

- Solved 200+ LeetCode Problems. - Completed internship in lions club international and organized a marathon run.	
---	--

EDUCATION

Lovely Professional University	Jalandhar, Punjab
Bachelor of Technology - Computer Science and Engineering CGPA: 7.52	Since Aug' 23
Shri Mahant Ramgiri Baba Jr College	Partur, Maharashtra
Intermediate Percentage: 65	Apr' 21 – Jun' 23
Anand Primary and secondary school	Partur, Maharashtra
Matriculation Percentage: 84	Mar' 21
